

Please leave XM radio and Howard Stern alone. I want to keep XM Instant Traffic and Weather. I travel a lot and instant traffic helps me get where I'm going faster without wasting my time sitting in traffic. I believe in freedom of speech. I pay for this service, don't end a good thing. Also, just because you don't agree with or like what Howard Stern has to say that is no reason to single him out and pull him off of his clear stations. Just like XM he has his rights too. If you violate those rights every American suffers, not just Stern or XM. Thank you.
